LinkedIn - Github - Portfolio

I am a Full Stack web developer with a strong focus on Frontend development. My passion for technology drives me to constantly seek new challenges and improve my skills in a self-taught way. I stand out for my ability to work as a team, assume leadership roles and provide support throughout the life cycle of a project.

PROFESSIONAL EXPERIENCE

Freelance Developer   Feb 2022 - currently
BeckmanDev

- Development of landing pages, dashboards and cutting-edge online applications through the application of latest technologies.
- Mastery in the design of interfaces and frontend elements, elevating the aesthetics and usability of the projects.
- Responsible for maintaining and optimizing websites and interfaces, ensuring an always optimal user experience.
- Cross-platform mobile development.

Frontend Developer   Sep 2022 - Feb 2023
JuacaxDev - IT Company

- I directed the development of key visual interfaces, including landing pages, dashboards and specialized forms, strengthening the digital presence and usability of the educational platform.
- I implemented specific solutions for university management, improving teacher control, student monitoring and payment management, standing out for contributing to the design and implementation of advanced functions for inventory control and administrative expenses.
- My comprehensive approach to aesthetics and functionality not only ensured an exceptional user experience, but also contributed significantly to the operational and administrative success of the educational institution, demonstrating a positive impact at a strategic and operational level.
